

# CILINDROS NEUMATICOS

## COMPACTOS

CIL.COMPACTO ISO21287 D.E. MAG

Referencia: **CDEM20-60KNF**

### Descripción

Cilindro doble efecto, magnético, con las mismas prestaciones que un cilindro ISO6431 con dimensiones más reducidas, emplea las mismas fijaciones que los cilindros ISO 6431.

### Características

| Referencia    | Diámetro (mm) | Carrera (mm) | Fuerza empuje (N) | Fuerza tracción (N) |
|---------------|---------------|--------------|-------------------|---------------------|
| CDEM20-5KNF   | 20            | 5            | 170               | 127                 |
| CDEM20-10KNF  | 20            | 10           | 170               | 127                 |
| CDEM20-15KNF  | 20            | 15           | 170               | 127                 |
| CDEM20-20KNF  | 20            | 20           | 170               | 127                 |
| CDEM20-25KNF  | 20            | 25           | 170               | 127                 |
| CDEM20-30KNF  | 20            | 30           | 170               | 127                 |
| CDEM20-40KNF  | 20            | 40           | 170               | 127                 |
| CDEM20-50KNF  | 20            | 50           | 170               | 127                 |
| CDEM20-60KNF  | 20            | 60           | 170               | 127                 |
| CDEM20-80KNF  | 20            | 80           | 170               | 127                 |
| CDEM20-100KNF | 20            | 100          | 170               | 127                 |
| CDEM20-125KNF | 20            | 125          | 170               | 127                 |
| CDEM20-150KNF | 20            | 150          | 170               | 127                 |
| CDEM25-5KNF   | 25            | 5            | 265               | 222                 |
| CDEM25-10KNF  | 25            | 10           | 265               | 222                 |
| CDEM25-15KNF  | 25            | 15           | 265               | 222                 |
| CDEM25-20KNF  | 25            | 20           | 265               | 222                 |
